

Action And Existence: Anarchism For Business Administration

"...Anarchism is not a panacea that will miraculously cure all the ills of the body social, but rather, a twentieth century guide to action based on a realistic conception of social reconstruction..."

SAM DOLGOFF; 1971

In this classic, thoroughly documented pamphlet, the late Sam Dolgoff, lifelong anarchist activist, convincingly demonstrates the relevance of the classical anarchist tradition in the face of bourgeois neo-Anarchism, distortions by historians, and social complexity, administrative problems, and technological advance. It doubles as a discussion of Anarchist principles, revolutionary pre-conditions, and the problems of post-revolutionary reconstruction and re-organisation.
